Objective

As a Full Stack Dot Net Developer ,I am proficient in C#, MS SQL, and PL-SQL and .NET Framework. With my expertise in these technologies, I contribute to the development and maintenance of robust and scalable software solutions. I specialize in leveraging C# to build efficient and reliable applications, ensuring seamless functionality and excellent user experiences.

Experience

- Medi Assist Healthcare Service Ltd** January 2025 - Present
Software Engineer
As a Backend Dot Net Developer ,I am proficient in C#, MS SQL, and PL-SQL, Redis (Cache), RabbitMQ, ElasticSearch, Linq, ASP.NET Core API, docker and .NET Framework. With my expertise in these technologies, I contribute to the development and maintenance of robust and scalable software solutions. I specialize in leveraging C# to build efficient and reliable applications, ensuring seamless functionality and excellent user experiences.

Projects working on :- Core Aurh Server, Ecard Service, Scan API, Cron job, etc.
- Octorite Technologies | Bangalore, Karnataka, India** March 2023 - January 2025
Software Engineer
As a Dot Net Developer ,I am proficient in C#, MS SQL, and PL-SQL, MQTT, ASP .NET Core Web API and .NET Framework. With my expertise in these technologies, I contribute to the development and maintenance of robust and scalable software solutions. I specialize in leveraging C# to build efficient and reliable applications, ensuring seamless functionality and excellent user experiences.

Projects working on :- Athena Desktop Application, Web Application

Education

- Birla Institute of Technology, Mesra** 2023
B-Tech in Computer Science Engineering
CGPA: 8.4/10
- Bihar State Board (BSEB)** 2019
Class XII
Percentage: 74.2%
- Gujarat State Board (GSEB)** 2017
Class X
Percentage: 65%

Skills

- C++/C#
- SQL/MS-SQL/PL-SQL
- Dot Net Framework
- Desktop App(Winforms, Telerik UI)
- Web App(ASP.NET Web Application, Web API, MVC model ,Blazor, Telerik UI)
- Object Oriented Programming, Solid Pricipal, Design Pattern
- Redis (Cache), MQTT, RabbitMQ, ElasticSearch, Unit Testing
- Azure Vault Key, OAuth, JWT, Json
- Git/Stash, SVN, Jenkins, Docker, Kubernetes

- DSA
- HTML, CSS, JavaScript

Projects

- **Core Auth Server**
 - I developed an authentication server supporting multiple sign-in methods, including OTP, password and two-step verification.
 - It handles concurrent login blocking, token authentication, and secure sign-out functionality, ensuring robust and flexible user access management accross various scenarios and also storing token in Cache.
- **Athena Web Application**
 - Developed a Web applications using C#, MS-SQL, MVC model, RestAPI, JavaScript, jQuery, HTML, CSS, Bootstrap, and MQTT within Telerik Blazor for the apparel industry.
 - Add Login page for security with 2 step Email verification through SMTP included Authentication & Authorization, Dashboard and RDLC Report.
 - Incorporated RFID connectivity to items for real-time tracking and scanning, delivering detailed information for live updates, optimizing efficiency in production planning for apparel manufacturing.
- **Athena Chat App**
 - The goal was to enhance software by integrating a ChatApp functionality using C#, SQL, and MQTT & also Login with Email verification through SMTP.
 - The ChatApp allowed users to engage in real-time conversations, exchange messages, and collaborate within the software ecosystem.

Achievements & Awards

- Led the successful implementation of the software at Brandix, Sri Lanka, on November as Software Implementation Specialist.
- Successfully executed the implementation of the software at Brandix, optimizing their operational processes and enhancing overall efficiency. Collaborated with cross-functional teams at Brandix to understand specific business requirements and tailored software configurations accordingly. Conducted on-site training sessions for Brandix staff, ensuring a smooth transition to the new software system.
- Maintained regular communication with the development team to relay client feedback and contributed to ongoing software improvements. Worked closely with clients to address any technical issues and provided timely resolutions, earning commendations for excellent customer service.
